EDUCATION

Medical Student at Federal University of Sergipe, Aracaju, Brazil

WORK EXPERIENCE

- Regional coordinator of the 1st Brazilian Congress of Anesthesiology for Academics, 2020.
- Vice-President of the “Anesthesiology and Intensive Care Group of Interest” at the Federal University of Sergipe, 2018-2019.
- President of the “Anesthesiology and Intensive Care Group of Interest” at the Federal University of Sergipe, 2020 – 2021.
- Volunteer in the 1st Ultrasound Guided Peripheral Workshop organized by the Anesthesiology Society of Sergipe, 2021.
- Regional coordinator of the Standing Committee on Medical Education, IFMSA, 2017-2018.
- Instructor in the National Cardiopulmonary Resuscitation Day, IFMSA, 2017.
- Volunteer in the Standing Committee on Sexual and Reproductive Health and Rights, IFMSA, 2018.
- Volunteer in the Standing Committee on Human Rights and Peace, 2017.
- Participant in the project “Human Anatomy Museum: An anatomical perspective for society.” Federal University of Sergipe, 2020.
- Participant in the project “Conhecer-se: Teaching of anatomy in public schools in Sergipe”, 2020.

RESEARCH EXPERIENCE

“Assessment of the impact of e-learning of theoretical anesthesiology for medical students”. **Federal University of Sergipe, 2020 - 2021.**

- **PI:** Fabrício Dias Antunes, MD
- **Role:** Coordinator
- **Duties:** To develop the research project, to instruct the research participants, to enter data and to write the text.

“Effectiveness of growth factors derived from autologous adipocyte aspirated in the treatment of rotator cuff tendinopathy”. **Hospital of the Federal University of Sergipe, 2020 – present.**

- **PI:** Ronald Bispo Barreto, MD
- **Role:** Coordinator
- **Duties:** To develop the research project, to collect data, to assist in the procedures and to write the text.

“Assessment of the prevalence of neck pain in medical students”. **Federal University of Sergipe, 2019.**

- **PI:** Ricardo Euzebio Ribeiro Silva Junior
- **Role:** Principal Investigator
- **Duties:** To develop the research project, to collect data and to write the text.

“Incidence of hypothermia in patients undergoing surgical procedures at a university hospital and its relationship with pre and postoperative anesthetic variables”. **Hospital of the Federal University of Sergipe, 2018 – 2019.**

- **PI:** Júlio César Mendes Brandão, MD
- **Role:** Coordinator
- **Duties:** To develop the research project, to collect data, to instruct other researchers and to write the text.

“Average time of fasting in patients submitted to elective surgeries in an academic hospital”. **Hospital of the Federal University of Sergipe, 2018 – 2019.**

- **PI:** Júlio César Mendes Brandão, MD
- **Role:** Coordinator
- **Duties:** To develop the research project, to collect data, to instruct other researchers and to write the text.

BIBLIOGRAPHY

Poster presentations:

- “Assesment of the impact of theoretical anesthesiology e-teaching during the COVID-19 Pandemic.” 17th World Congress of Anaesthesiologists. Prague, Czech Republic, 2021.
- “ASA Physical Status classification and incidence of perioperative hypothermia.” 17th World Congress of Anaesthesiologists. Prague, Czech Republic, 2021.
- “Physical exercise decreases neck pain in medical students.” 17th World Congress of Anaesthesiologists. Prague, Czech Republic, 2021.

- “Female medical students in Brazil have an almost 40% higher prevalence of neck pain.” 17th World Congress of Anaesthesiologists. Prague, Czech Republic, 2021.
- “Screen time exposure and reporting of headaches in medical students in Brazil: A cross-sectional study.” 17th World Congress of Anaesthesiologists. Prague, Czech Republic, 2021.
- “Medical students who practice physical activity have a lower prevalence of neck pain in Brazil.” 66th Brazilian Congress of Anesthesiology. Goiânia, Brazil, 2019.
- “Incidence of hypothermia in surgical patients: patients undergoing neuraxial blocks have a higher incidence of hypothermia.” 66th Brazilian Congress of Anesthesiology. Goiânia, Brazil, 2019.
- “Observational study: Prolonged fasting in patients with scheduled elective surgeries.” 66th Brazilian Congress of Anesthesiology. Goiânia, Brazil, 2019.
- “Prolonged fasting in pediatric patients.” 66th Brazilian Congress of Anesthesiology. Goiânia, Brazil, 2019.
- “Dextrocardia with situs inversus as an aid in the differential diagnosis of cardiac malformations.” 38th Brazilian Congress of Anatomy. João Pessoa, Brazil, 2018.
- “Persistence of the left superior vena cava: a case report .“ 54th Argentine Congress of Anatomy. La Plata, Argentina, 2017.
